**Subject:** RE: Regarding systematic review

Hi Tina – thanks for the suggestion. Our next LRI SST meeting will be a conference call in December. So we probably don't want to wait that long to schedule such an update. Were you thinking a webinar or in person presentation at ACC (that we can also do as a webinar for members)? Kimberly and I can confer after I get back to ACC after the ISES meeting and come up with a couple of potential dates/times to suggest to you and Kris.

Thanks

Rick

**Subject:** Regarding systematic review

Good morning Rick and Kimberly,

Following on recent discussions at the NAS BEST and the formaldehyde meeting last week, there seems to be some interest in tools and methods IRIS is developing and using for pragmatic implementation of systematic review in our assessment practices. If you are planning meetings with your members in LRI and/or CPTD, and think there might be interest, it might be good for Kris to provide an update on these efforts? What do you think?

Thanks,

Tina
